METHOD FOR PROVIDING CANVAS OF PAPER-MAKING MACHINE WITH ANTI-STAINING AGENT THROUGH SPRINKLING, AND SLIDING SPRINKLE DEVICE AND ANTI-STAINING AGENT FOR USE THEREIN

ABSTRACT OF THE DISCLOSURE

The present invention provides a method of spraying an antipollution agent which can securely apply a proper amount of antipollution agent toonto a canvas of a paper machine, a spray nozzle and a slidable spray apparatus used in the spraying method, and an antipollution agent. In an antipollution agent praying method of applying an antipollution agent (T) toonto a canvas (A) used for drying paper in a paper machine, the method applies the antipollution agent (T) from a spray nozzle (S) toward a contact start position (C) between an outer surface of the canvas (A) and an out roll (B), applies the antipollution agent (T) toonto said out roll (B), and transfers and applies the antipollution agent (T) toonto the canvas (A) via said out roll (B).
